The 2020 Census begins in March. Please be sure to fill the form out and return it. It affects the amount of grants, money to maintain roads, etc. that the City of Paris will be able to receive over the next 10 years. Be sure to account for every child and elder in the home as no child is too young. The census consists of 10 questions and by law, absolutely none of the information will be released to anyone for any reason other than the Census Bureau. If you have not returned the paperwork by May, your address will be visited by a Census Worker until the paperwork is completed. The last Census showed Paris being 6% below the Nation residential rate. Please help get those numbers up by participating as honest

as you possibly can.
